**Agency Highlights**

Office of Secretary of State Major Budget Highlights	
<ul style="list-style-type: none"> <li>• Funding for the Help America Vote Act of 2002 would add \$11.0 million federal funds</li> <li>• The remainder of the office's funding is derived from non-budgeted proprietary funds</li> </ul>	

**Funding**

The operations of the Secretary of State are funded primarily with proprietary funds derived from fees for services, document sales, and other fees established in statute. Beginning in FY 2003, the federal Help America Vote Act of 2002 provided federal special revenue for election reform initiatives. However, since the \$1.4 million federal Help America Vote Act of 2002 funds that were expended in FY 2004 were authorized through a budget amendment, the funding was removed from the base when developing the 2007 biennium budget. As such, the HB 2 tables show only the funding for the Help America Vote Act of 2002 requested for the 2007 biennium. The proprietary funded portion of the program is discussed in the Proprietary Rates section.

The funding would be used to develop a computerized statewide voter registration list that contains the name and registration information of every legally registered voter in the state and assigns a unique identifier to each. The funding would be spent on: 1) technology development costs for the system; 2) advertising costs for a public relations effort on the changes to voting of HAVA; 3) education costs for local government voting administration personnel; and 4) personal services for a 1.00 FTE modified position to coordinate delivery of the HAVA requirements.

### Proprietary Revenues and Expenses

The Office of the Secretary of State administers one proprietary fund. Revenue is received from fees charged to: 1) state agencies for managing agency records; 2) businesses and corporations for corporate filings, and registration of assumed business names and trademarks; 3) state agencies and users of the Administrative Rules of Montana (ARM) for publishing and distributing the ARM and the Montana Administrative Register (MAR); 4) candidates who file for elections; and 5) Montana citizens who apply to be notaries.

The office has attempted to balance revenues and expenditures by streamlining operations and reducing fees. Revenue fluctuations are due to a combination of internal fee adjustments, which the office can control, and business registrations or candidate filings, which the office cannot control. The annual reports workload increased by 32 percent from 2001 and 2003. During this same period there were 40,000 new business registrations. Consequently, there is some fluctuation in the revenue collected from business registration fees. The same is true for candidate filings, which change from election to election depending on the number of candidates filing for office.

The figure for fund 06053 shows the financial information for the fund from FY 2002 through FY 2007.

**Proprietary Rate Explanation**

Rates are based upon an estimate of the cost to provide each individual service and a comparison of fees charged for similar services in other states. Fees are set in state statute or established through the Montana Administrative Procedure Act. Because the proprietary funded portion of the program is funded with an enterprise type proprietary fund, the legislature does not approve fees in HB 2.

The fees charged by the office are shown on Figure 1 through Figure 5 and are for information only.
